

A CRM APPLICATION FOR BANQUET HALL BOOKING

Date	20-06-2025
Team ID	LTVIP2025TMID29605
Project name	A Crm Application for Banquet Hall Booking
Maximum marks	

Chapter – 1 Introduction

The Banquet Hall Booking Management System is a cloud-based CRM solution built on the Salesforce platform to automate and optimize the end-to-end process of booking banquet halls for events such as weddings, conferences, birthdays, and corporate functions. This system empowers both customers and administrators with a seamless experience—from inquiry to event execution.

Key Modules:

Module	Description
Booking Management	Handles customer inquiries, availability checks, and booking confirmations
Service Integration	Links catering, decoration, and other services to each booking
Admin Dashboard	Allows staff to manage schedules, approve bookings, and monitor KPIs
Notifications	Sends automated emails/SMS for confirmations and reminders
Reports & Insights	Visual dashboards for performance tracking and decision-making

1.1 Project Overview:

- To digitize the booking process, eliminating manual errors and delays.
- To provide real-time availability and booking status updates.
- To integrate event services like catering, décor, and entertainment.
- To ensure data integrity and prevent double bookings using Salesforce Flows and Validation Rules.
- To generate actionable insights through dashboards and reports.

A CRM APPLICATION FOR BANQUET HALL BOOKING

1.2 Purpose of the Project

The primary purpose of this project is to **automate and streamline** the complete lifecycle of banquet hall bookings using Salesforce CRM tools. This not only enhances operational efficiency but also delivers a **modern, customer-friendly experience** tailored to the event industry.

Specific Goals:

- a. **Digitize the Booking Workflow:** Eliminate traditional paper-based or spreadsheet systems, enabling real-time bookings and cancellations.
- b. **Centralize Data Management:** Store all booking details, customer information, and service requests in one secure platform.
- c. **Prevent Double Bookings:** Use automation and validation rules to ensure no scheduling conflicts occur.
- d. **Integrate Event Services:** Manage add-ons like catering, decoration, and entertainment services within the same system.
- e. **Improve Communication:** Enable automated notifications and reminders via email/SMS for customers and staff.
- f. **Facilitate Business Decisions:** Use dashboards and analytics to track performance, trends, and customer feedback.
